Education

College Diploma: Game Programming

September 2019 – April 2021

St. Lawrence College

- Learn how to create games using a Unity Game Engine and C++
- Received **Academic Distinction** in the first year
- Maintained a **GPA of 3.8/4.0**
- For the final project, the entire class worked with South Dundas Tourism to create a tourism app called "South Dundas Tourism Pursuit" (which is currently available on the Apple and Google Play stores) that allows users to scan QR codes at select tourist spots, upon which they will unlock a badge that allows them to see more information about the spot, and depending on the location, even play a minigame themed around the attraction

Advanced Diploma: Mobile Applications Development

September 2015 – April 2019

St. Clair College

- Received **Academic Distinction** for all but the final semester
- Maintained a **GPA of 3.8/4.0**
- Created a full children's platforming game (with one other person) for the final project
- Compiled a GDD (Game Design Document) for the entire final project

Work Experience
